Integrated Management System (IMS) Policy Statement

concreTec NEW ZEALAND LIMITED

Our Values

- The management of occupational health & safety, the environment and quality is an integral part of our business.
- Occupational health and safety, environmental protection and quality is everyone's responsibility.
- We demonstrate management commitment, leadership and competence in proactive accident prevention, environmental protection, prevention of pollution and continual operations improvement.
- We strive towards eliminating physical and psychosocial harm to workers and the environment.
- We provide quality services that exceed our customers' expectations.
- We believe in communicating our occupational health and safety, environmental and quality performance.

Our Commitment

- To establish and maintain management systems to the requirements of the Occupational Health and Safety standard (ISO45001), the Environmental standard (ISO 14001) and the Quality standard (ISO 9001).
- To develop, implement, measure and review objectives and targets to ensure continual improvement of our occupational health, safety, environmental and quality performance, including the prevention of pollution.
- To provide training and information to workers on occupational health and safety, environmental and quality responsibilities, and the importance of their individual contributions to the business.
- To consultation and participation of workers and their representatives.
- To provide appropriate resources to enable maintenance and continuous improvement of the occupational health and safety, environmental and quality management systems.
- To proactively monitor, manage and review existing operations, new plant, equipment and processes, to be committed to the elimination of hazards and minimising the OH&S risks (including physical, psychological, and psychosocial harm) to workers and the impact to the environment.
- To comply with all legal and statutory requirements, resource consents and approvals.
- To use materials efficiently, manage waste materials effectively, economically recycle materials and byproducts where possible and to conserve all resources.
- To up-skill and involve all staff in continual quality improvement initiatives.
- To provide information to all interested parties on our occupational health and safety, environmental and quality performance.

Concretec NZ recognises that providing a safe and healthy workplace—encompassing both physical safety and mental wellbeing—together with quality services and protection of the environment, is imperative to its overall business goals. In recognising our position in the local community, we will strive towards eliminating harm of any nature from our workplace and to our environment.
